OWNER

The Stone Church

The Stone Church enlisted the Concept Development Group (CDG) to construct a new church building to enable them to relocate and upgrade from their previous location in Palos Heights.

CDG enlisted GEOCON to provide testing and inspection services for the construction of a 30,000 square foot modern facility with a 400-seat chapel, gymnasium, administrative offices, classrooms, and daycare center. Additionally, the new construction included asphalt paved parking lots and roadways on the 16 acre site.

Partially Listing of Services Provided:

- Subgrade strength testing
- Proofroll tests
- Soil and aggregate compaction testing
- Rebar inspections
- Weld and bolted connections inspections
- Fresh concrete testing and monitoring
- Compressive strength testing
- Floor flatness testing / levelness
- Asphalt density testing
